

SIDEWINDER

SIGNAL SLEEVE

MAKE YOUR MARK

Distinguishing a hose bundle is made easy with Sidewinder Signal Sleeve. With a variety of colors and unlimited prints to choose from, you can find the perfect sleeve to label your hose bundle.

Signal Sleeve was designed specifically as an economical solution for hose, cable and wire management to indicate and signal to the operator. Offering multiple material colors in conjunction with multiple logo options and printed color options, Signal Sleeve can be your guide.

The sleeve is designed using high tenacity textured nylon with a light coating of polyurethane to offer abrasion resistance and a water-repellent finish.

Signal Sleeve offers extreme Hook and Loop closure, allowing the sleeve to be applied post-assembly. This style fastener has proven to reduce costs associated to installation or maintenance by up to 70%.

- Lightweight and flexible
- Provides a clean and professional look
- Economical solution for a variety of bundling
